

EKOF products for perfect water treatment

Scale inhibitors, Dispersants and Corrosion inhibitors for cooling tower systems:

EKOFACT KT	combination of scale inhibitors, dispersants and corrosion inhibitors (iron), based on phosphonates and organic polymers
EKOFACT P-Cu	combination of scale inhibitors, dispersants and corrosion inhibitors (iron and copper), phosphate-free, based on organic polymers
EKOFACT KT-S	combination of scale inhibitors (especially effective for sulphates), dispersants and corrosion inhibitors (iron), based on phosphonates and organic polymers
EKOFACT D1015	combination of various dispersants for mud and scale inhibitors, based on organic polymers

Scale inhibitors, Dispersants and Corrosion inhibitors for closed and semi-closed cooling water systems:

EKOFACT Mo	combination of scale inhibitors, dispersants and corrosion inhibitors (iron and copper), zinc-free, based on molybdate, phosphonates and organic polymers
EKOFACT BE	combination of scale inhibitors, dispersants and corrosion inhibitors (iron and copper), zinc- and molybdate-free, based on phosphonates and organic polymers
EKOFACT F-100	combination of anti-freeze and corrosion inhibitors (iron and copper), based on glycol and molybdate
EKOFACT EH	corrosion inhibitor for copper, based on triazoles
EKOFACT D1015	combination of dispersants for mud and scale inhibitors, based on organic polymers

Biocides

EKOFACT B100	oxidising biocide, based on chlorine dioxide
EKOFACT B200	oxidising biocide, based on hydrogen peroxide
EKOFACT B301	quaternary biocide
EKOFACT B400	biocide, based on DBNPA
EKOFACT B500	biocide, based on isothiazolone
